PROFESSIONAL SUMMARY

Senior DevOps Engineer with **6+ years** of experience designing, automating, and managing **scalable cloud infrastructure** across AWS, GCP, Azure, and hybrid environments. Proven expertise in **Kubernetes, Docker, Terraform, Apache Kafka, CI/CD automation, GitOps, and DevSecOps** for fintech, healthcare, SaaS, and enterprise platforms. Skilled in building **highly available production systems**, improving deployment reliability, optimizing cloud costs, and implementing secure **Infrastructure as Code (IaC)** solutions. Strong experience with **GitHub Actions, Jenkins, ArgoCD, Prometheus, Grafana, ELK Stack**, and cloud security services including **IAM, WAF, GuardDuty, KMS, and Security Hub**. Certified in Kubernetes and cloud technologies with a strong focus on **automation, scalability, observability, and operational excellence** for modern cloud native applications.

TECHNICAL SKILLS

Cloud Platforms	AWS (EKS, ECS, Lambda, RDS, S3, CloudFront, Route 53, WAF) · GCP (GKE, Cloud Run, Cloud SQL, Pub/Sub, VPC) · Azure (AKS, Azure DevOps) · Oracle Cloud · DigitalOcean · Hetzner · Cloudflare	Containers & Kubernetes	Kubernetes (EKS, GKE, AKS, kubeadm, OpenShift) · Docker · Helm · ArgoCD · Docker Compose
CI/CD & GitOps	GitHub Actions · GitLab CI/CD · Jenkins · Bitbucket Pipelines · ArgoCD · AWS CodePipeline	Infrastructure as Code	Terraform · Ansible · AWS CloudFormation · Pulumi · Bash · Python · PowerShell
Databases	PostgreSQL · MySQL · MongoDB · Redis · DynamoDB · SQL Server · Cloud SQL · RDS Multi-AZ	Streaming & Messaging	Apache Kafka · Kafka Connect · RabbitMQ · Redis Streams · GCP Pub/Sub · AWS SQS · AWS SNS
Monitoring & Logging	Prometheus · Grafana · ELK/EFK Stack · CloudWatch · Datadog · Alertmanager · SLI/SLO Monitoring	DevSecOps & Security	IAM · GuardDuty · WAF · KMS · Security Hub · SonarCloud · HashiCorp Vault · Trivy · MFA · SOC2 · HIPAA
Networking & Systems	Linux (Ubuntu, CentOS, RHEL) · Windows Server · Nginx · Apache · Load Balancing · DNS · CDN · SSL/TLS · VPC	High Availability & DR	Backup & Restore · Disaster Recovery · Multi-AZ Deployments · Replication · Auto Scaling

PROFESSIONAL EXPERIENCE

DevOps Engineer	2025 – Present
Tangible Markets Ltd · Remote, United Kingdom	
- Architected and automated the full AWS infrastructure using Terraform IaC, eliminating manual provisioning and enabling repeatable, version controlled environments - Designed and deployed an enterprise grade DevSecOps framework integrating AWS GuardDuty, Security Hub, WAF, Inspector, KMS encryption, and IAM least privilege across all workloads	

- Built **zero downtime CI/CD pipelines** using GitHub Actions with OIDC federation enabling secure, credential free deployments to AWS ECS and EKS
- Managed a highly available AWS infrastructure stack (VPC, ECS, RDS Multi-AZ, ALB, WAF, Route 53, CloudFront, S3, CloudTrail) ensuring **continuous uptime for mission critical workloads**
- Implemented comprehensive observability with CloudWatch dashboards and structured logging, automated backup strategy via AWS Backup with tested **disaster recovery procedures**
- Delivered complete infrastructure documentation and runbooks, accelerating onboarding and reducing operational dependency on key individuals

DevOps Engineer

2024 – 2025

iCustoms.ai · Remote, United Kingdom

- Drove significant improvements in **deployment speed and reliability** by migrating a legacy PHP/Laravel monolith to containerized microservices on AWS ECS/ECR with fully automated CI/CD
- Architected **Laravel Vapor serverless deployments** for rapid, low overhead feature releases, reducing infrastructure management burden on the development team
- Integrated **SonarCloud security scanning** into all CI/CD pipelines, enforcing automated code quality and security gates before every production deployment
- Managed multi environment deployments (Dev, QA, Staging, Demo and Production) with centralized configuration and secrets management via **AWS SSM and KMS**

DevOps Engineer

2021 – 2024

Vital Steer LLC · Lahore, Pakistan

- Drove significant **cloud cost optimization** across multiple client accounts through right sizing, Reserved Instances, and Spot instance strategies
- Led multi cloud deployments across **AWS, GCP, Azure, and DigitalOcean**, managing multiple concurrent international client projects simultaneously
- Designed and implemented **GitOps workflows** using ArgoCD and GitHub Actions, achieving self healing automated deployments and significantly reducing deployment failures
- Delivered **SOC2 compliant** infrastructure and **HIPAA compliant** infrastructure, passing all external security audits
- Built **Prometheus + Grafana observability stacks** across client applications with SLIs/SLOs, enabling proactive incident detection and faster resolution
- Automated infrastructure provisioning using **Terraform and Ansible**, eliminating manual effort and standardizing deployments across all client environments
- Executed **AWS → GCP cloud migrations** with zero data loss and improved application performance through serverless Cloud Run architecture
- Managed **multi node Kubernetes clusters** on Hetzner Cloud and kubeadm, optimizing pod scheduling, networking, and resource utilization

Associate DevOps Engineer

2020 – 2021

Oriental Tech Solutions · Lahore, Pakistan

- Managed **Jenkins and GitLab CI/CD pipelines** for multiple concurrent development teams, improving build reliability and reducing failed deployments
- Administered Linux server environments (Ubuntu, CentOS) with performance tuning, log monitoring, and package management
- Dockerized legacy applications with optimized Dockerfile configurations, **significantly reducing build times** and standardizing the development workflow
- Configured **Nginx reverse proxies**, load balancers, and SSL/TLS termination, provisioned and managed AWS EC2, S3, and RDS for client workloads

KEY PROJECTS

WeFi App — SOC2 DevSecOps on AWS

Fintech

EKS

AWS EKS · Django · Celery · Redis · RDS Multi-AZ · GuardDuty · KMS · IAM

Hanna Health — HIPAA Platform on

Healthcare

AWS ECS

AWS ECS · ECR · S3 · GitHub Actions · Docker · HIPAA Controls

- Full SOC2 compliant DevSecOps pipeline on EKS for a high stakes Django fintech app integrated GuardDuty, Macie, AWS Config, VPC Flow Logs **~85% pass on Vanta & ScoutSuite audits**
- Enforced MFA, IAM least privilege, EBS KMS encryption, non root containers, liveness probes, and NetworkPolicies

 Paragon — Full Multi Environment GCP Platform

SaaS

GCP Cloud Run · Compute Engine · Artifact Registry · Pub/Sub · GitHub Actions

- Designed and managed Dev, QA, and Production environments on GCP with Cloud Run, VPC, IAM, Cloud DNS, Load Balancer
- Delivered complete project ownership: automated CI/CD and zero downtime deployments across all environments

 Metutors.ai — SOC2 K8s on Hetzner Cloud

EdTech / AI

Kubernetes (kubeadm) · Helm · Jenkins · Hetzner · WebSocket (WSS)

- Managed multi node Kubernetes cluster resolved critical WebSocket and Supervisor instability issues
- Delivered full infrastructure documentation supported successful SOC2 compliance certification

 Seers.ai — Privacy Compliance Platform

AI/SaaS

AWS · Docker · CloudFront · Lambda · ALB · DNS/SSL · DMARC

- Managed scalable AWS infrastructure and CI/CD pipelines for an AI privacy platform, ensuring high availability and secure data collection.
- Hardened email and domain security via DMARC, SPF, and DKIM to ensure global **GDPR/CCPA compliance**.

EDUCATION

Bachelor of Science — Computer Science
University of Management and Technology (UMT) · Lahore, Pakistan
Oct 2017 – Dec 2021

RECOGNITION

 **Best Employee of the Quarter — Recognized for outstanding technical excellence and international client delivery**

- Built complete HIPAA compliant production infrastructure from scratch on ECS + ECR with automated GitHub Actions CI/CD
- Enforced encryption at rest/transit, audit logging, and access controls, passed HIPAA compliance review

 Donamix & G3MS — AWS → GCP Migration

Cloud Migration

AWS EC2/S3 · GCP Cloud Run · Compute Engine · GitHub Actions

- Led production cloud to cloud migrations with **zero data loss**, transitioning to GCP Cloud Run serverless architecture for improved performance and cost efficiency
- Implemented **disaster recovery strategy** and fully automated deployment pipelines post migration

 KashPay — Hybrid Cloud Fintech

Fintech

AWS EC2 · ECS · SES · SQS · GitHub Actions · Docker · Socket.io

- Delivered hybrid cloud architecture (EC2 staging + ECS production) with end to end GitHub Actions CI/CD
- Stabilized critical Socket.io real time connection failures under production load

 Insights — Multi-Region GCP Migration

Consultancy

GCP · WordPress · Cloud Firewall · Nginx/Apache · Cloud DNS

- Successfully migrated regional consultancy websites from cPanel to **GCP Cloud Infrastructure** across UAE, UK, and KSA regions.
- Optimized website performance and implemented robust GCP Firewall security.
